Fun and Games® Eye Spy Foamy Bells

Heucherella 'Eye Spy'

Plant Height: 10 inches

Flower Height: 16 inches

Spread: 20 inches

Spacing: 16 inches

Sunlight: ◐ ●

Hardiness Zone: 4a

Group/Class: Fun and Games Collection

Description:

Dainty spikes of light-pink bells rise from a compact mound of light green to chartreuse foliage with dark burgundy veins; amazing contrast to other plants, great versatility; keep moist in heat of summer

Ornamental Features

Fun and Games Eye Spy Foamy Bells features dainty spikes of pink bell-shaped flowers rising above the foliage from late spring to early summer. The flowers are excellent for cutting. Its attractive lobed leaves emerge chartreuse in spring, turning light green in color with distinctive burgundy veins and tinges of silver the rest of the year. The dark red stems can be quite attractive.

Landscape Attributes

Fun and Games Eye Spy Foamy Bells is a dense herbaceous evergreen perennial with tall flower stalks held atop a low mound of foliage. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This is a relatively low maintenance plant, and should be cut back in late fall in preparation for winter. It is a good choice for attracting hummingbirds to your yard. It has no significant negative characteristics.

Fun and Games Eye Spy Foamy Bells is recommended for the following landscape applications;

- Mass Planting
- Rock/Alpine Gardens
- Border Edging
- General Garden Use
- Groundcover
- Container Planting

Planting & Growing

Fun and Games Eye Spy Foamy Bells will grow to be about 10 inches tall at maturity extending to 16 inches tall with the flowers, with a spread of 20 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 16 inches apart. Its foliage tends to remain low and dense right to the ground. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years. As an evegreen perennial, this plant will typically keep its form and foliage year-round.

This plant does best in partial shade to shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. Consider covering it with a thick layer of mulch in winter to protect it in exposed locations or colder microclimates. This particular variety is an interspecific hybrid. It can be propagated by division; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Fun and Games Eye Spy Foamy Bells is a fine choice for the garden, but it is also a good selection for planting in outdoor pots and containers. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers and foliage against which the larger thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
